

**EPIQ**

---

DOWNLIGHTS

## EPIQ EFFICIENCY

---

Save energy and reduce running costs. All EPIQ models have a 60+ lumens per watt minimum efficacy, compared to conventional incandescent bulbs that yield only 11 lumens per watt. Incandescent watts that don't convert to light create heat, making homes and commercial buildings require more energy to cool the space.

## EPIQ PERFORMANCE

---

High (90+) CRI provides the natural light so that colors look like you expect them to look. EPIQ downlights last up to 35,000 hours and allow full-range dimming. High output versions emit over 1400 lumens - and each series has high performing White modules to give you plenty of light even when CLIQ trims are used.

## CLIQ INNOVATION

---

Easily convert round to square with newly designed, highly economical CLIQ trims. Simply snap on CLIQ squares to EPIQ downlights - use White trims for best performance - and create a new design/architectural look in any of three popular finishes. CLIQ trims are made of durable, wear-resistance plastic that can be custom painted if desired.

## EPIQ QUALITY

---

Specifically designed for its unique versatility, longevity and reliability, the EPIQ series combines quality with value. From the metal core PC board to the aluminum heat sink, the EPIQ series is built to last, includes a 5-year warranty and meets Energy Star standards.

## EPIQ 56

The adjustable EPIQ 56 series, designed for 5" and 6" recessed housings, combines high efficacy (up to 92 lumens per watt) with sleek modern design. Upgrade the look with simple CLIQ trims available in baffle or smooth squares in three finishes.

## EPIQ 4

Choose from nine retrofit options, all of which combine high efficacy (up to 94 lumens per watt) with a smaller footprint. Upgrade the look with simple CLIQ on square trims available in baffle or smooth squares in three finishes.

## EPIQ 3

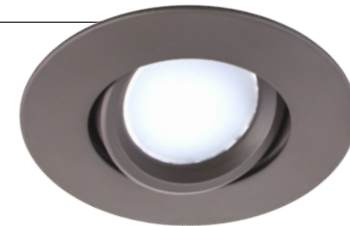

The smallest retrofit of the EPIQ family, the EPIQ 3, with up to 87 lumens per watt, is superior for accenting or highlighting architectural features. With CLIQ trims, update to a modern look with smooth squares in three finishes. Our exclusive EPIQ 3 is designed specifically for American Lighting's AL3-ICAT for new construction.

## EPIQ 3RE

Another EPIQ 3 option is the new EPIQ 3RE series, which includes a 3" (non-IC) remodel housing and integrated light module for damp locations. With the (non-swivel) EPIQ 3RE downlights you can complete the look with CLIQ on trim kits available in three finishes. Dial in even greater control with our EPIQ 3RES swivel options.

## SATELLITE ST56 / ST4

Multi purpose Satellite Bevels let you retrofit recessed cans or surface mount ceiling fixtures to low profile, energy saving dimmable LED light. Two sizes and three classic finishes (White, Dark Bronze and Nickel) let you easily upgrade to Warm White light that mimics incandescent, and save 85% in running costs.

# EPIQ 56

The adjustable EPIQ 56 series, designed for 5" and 6" recessed housings, combines high efficacy (up to 92 lumens per watt) with sleek modern design. Upgrade the look with simple CLIQ trims available in baffle or smooth squares in three finishes.

## FEATURES

- Versatile 5/6" LED downlights that include eight standard and three high output retrofit options including a 277V AC high output retrofit available for commercial applications
- High (90+) CRI light provides accurate color rendering
- Dimmable with most standard incandescent (triac) and low voltage electronic dimmers (5-100% light control)
- Quickly and easily modernize the look with CLIQ on trims that are injection molded heavy-duty (paintable) plastic featuring high quality wear-resistant finishes
- Frosted polycarbonate lens diffuses light evenly
- Torsion clips (**X6-TORCLIPS**) available for non-bullhorn 6" recessed housings
- Type IC and cETLus Listed for wet locations
- ENERGY STAR pending

## FINISHES

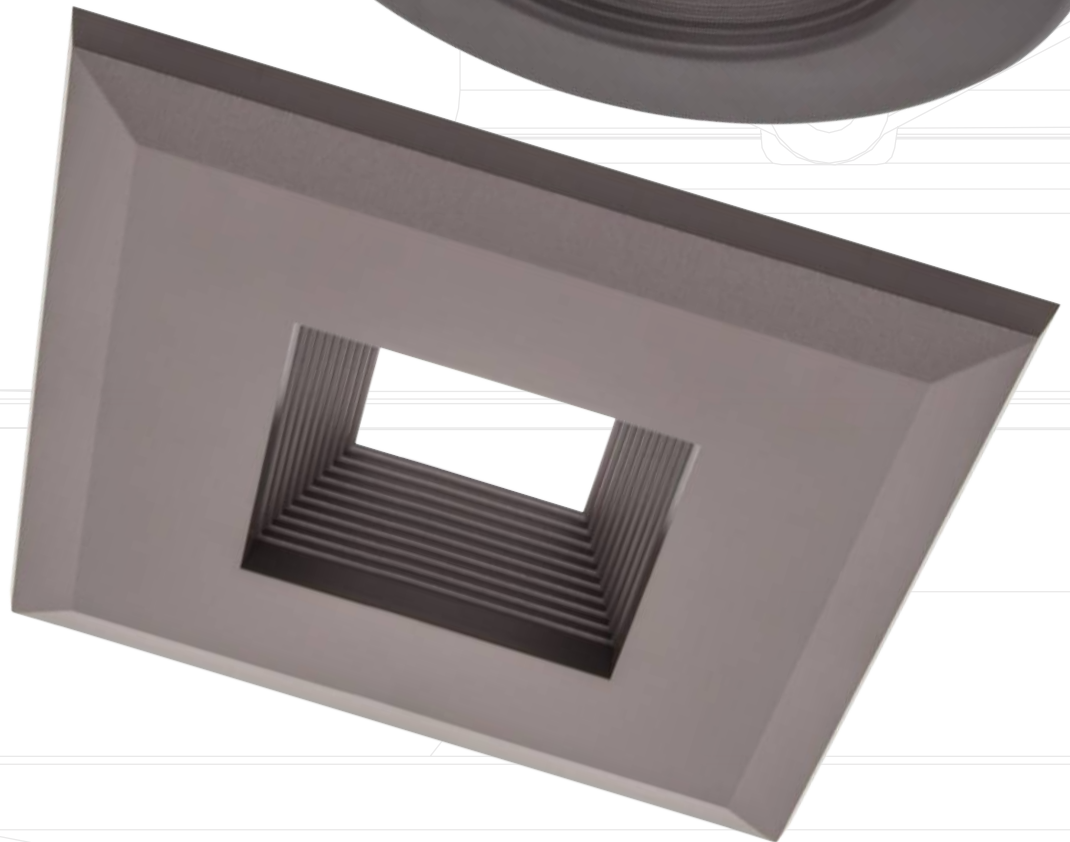

Dark Bronze    Nickel    White

**X6-TORCLIPS**  
(Torsion Clips)

## SPECIFICATIONS

SERIES	EPIQ 56
INPUT VOLTAGE	120V AC, 60Hz / 277V AC (High Output)
CCT	2700K / 3000K / 4000K
CRI	90+
WATTAGE	13.5W / 19W (High Output)
LUMENS	Up to 1250Lm / Up to 1500Lm (High Output)
BEAM ANGLE	84°
DIMMABLE	Yes
RATING	cETLus Listed (Type IC, wet location)
RATED LIFE	35,000 hrs

# EPIQ 4

Choose from nine retrofit options, all of which combine high efficacy (up to 94 lumens per watt) with a smaller footprint. Upgrade the look with simple CLIQ on square trims available in baffle or smooth squares in three finishes.

## FEATURES

- Performance to size ratio comparable to 5" and 6" standard retrofits
- Small footprint for smaller spaces, and lower ceiling or soffit applications
- High (90+) CRI light provides accurate color rendering
- Modernize the look with CLIQ on trims that are injection molded heavy-duty plastic with high quality wear-resistant finishes
- Dimmable with most standard incandescent (triac) and low voltage electronic dimmers (5-100% light control)
- Frosted polycarbonate lens diffuses light evenly
- Compatible with Type IC **AL4-ICAT** housing
- Type IC and cETLus Listed for wet locations
- ENERGY STAR pending

# SATELLITE ST56 / ST4

Multi purpose Satellite Bevels let you retrofit recessed cans or surface mount ceiling fixtures to low profile, energy saving dimmable LED light. Two sizes and three classic finishes (White, Dark Bronze and Nickel) let you easily upgrade to Warm White light that mimics incandescent, and save 85% in running costs.

## FEATURES

- Low profile bevel design for a modern flush mount look that is non-intrusive (only 1-1/4" high)
- Aluminum heat sink extends LED life up to 35,000 hours – fourteen times the life of traditional incandescent flush mounts
- New on-board driver is easier to install than remote driver types, now compatible with 'pancake' and standard depth junction boxes
- Dimmable with most standard incandescent (triac) and low voltage electronic dimmers (5-100% light control)
- Injection molded heavy duty plastic housing is lightweight and sturdy
- High quality wear-resistant baked enamel finishes last the life of the LEDs
- Frosted polycarbonate lens diffuses and softens light
- cETLus Listed for indoor use in wet locations
- ENERGY STAR pending

## FINISHES

Dark Bronze

Nickel

White

## SPECIFICATIONS

SERIES	Satellite ST56 / ST4
INPUT VOLTAGE	120V AC, 60Hz
CCT	3000K
